ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: PHOTOPOLYMER PRINTING PLATE PRECURSOR

(57) Abstract: A photopolymer printing plate precursor is disclosed comprising in this order a photosensitive coating and a protec-
tive coating on a support, wherein said photosensitive coating comprises a composition that is photopolymerizable upon absorption
of light, said composition comprising a binder, a polymerizable compound, a sensitizer and a photoinitiator, and wherein said pro-
tective coating comprises one or more types of polyvinylalcohol, characterized in that said photoinitiator is a hexaaryl-bisimidazole
compound and the mean saponification degree of all the polyvinylalcohols which are used in the protective coating is less than 93
mol-%. Said printing plate precursor has high speed and a good pre-heat latitude.
